NOTICE OF PRIVACY PRACTICES

Your Information. Your Rights. Our Responsibilities

HEALTH SERVICES

This notice describes how medical information about you may be used and shared with others and how you can get access to it. Please review it carefully.

OUR USES AND DISCLOSURES

How do we typically use or share your health information?

We typically use your health information in the following ways.

1) To treat you

We can use your health information to and provide it to others who are treating you.

Example: A doctor treating you for an injury asks another doctor about your overall health condition.

Outer Cape Health Services uses a secure medical record. Access to your medical records and other information maintained by Outer Cape Health Services is restricted to clinicians and staff who need the information for treatment, payment or health care operations purposes, or other allowable purposes as described by this Notice.

In some cases, clinicians at other health care organizations may be able to electronically access your health information created or maintained by Outer Cape Health Services, through a secure network for the transmission of health information such as the Massachusetts Health Information Highway ("The Hiway"). All of these clinicians are required to take steps to protect the confidentiality of your information.

2) To run our organization

We can use and share your health information to run our practice, improve your care and contact you when necessary.

Example: We use health information about you to assess the quality of care we provide.

3) To bill for our services

We can use and share your health information to bill and collect payment for health plans or entities, including individuals, such as family members who are responsible for paying for your health care.

Example: We give information about you to your health insurance company so it will pay for our services.

How else can we share your information?

We are allowed or required to share your information in other ways, usually in ways that contribute to the public

Example: Massachusetts Immunization Information Systems ("MIIS") is a statewide system to track immunizations given to you and your family. The goal is to ensure everyone in the state's up-to-date with their vaccinations and that records are available when you need them, such as when a child enters school, in an emergency or when you change your healthcare provider. You can choose to opt out of the program, but your information will continue to be maintained in the MIIS database. Opting out only means that you will need to keep track of your child's immunization records in the event that you change doctors or get immunized at another health facility.
